VISION

MISSION

OUR VALUES

MARITRANS LOGISTICS LTD

Maritrans Logistics is a global freight and logistics service company that implements and operates complex supply chain solutions on a national, regional and global scale on behalf of small, medium and large corporate firms. We specialize in offering freight & logistics services, Customs brokerage, warehousing, cargo transportation, distribution and Supply Chain Management services.

MISSION

To provide high value services to our clients through alignment of our services to the needs of our clients.

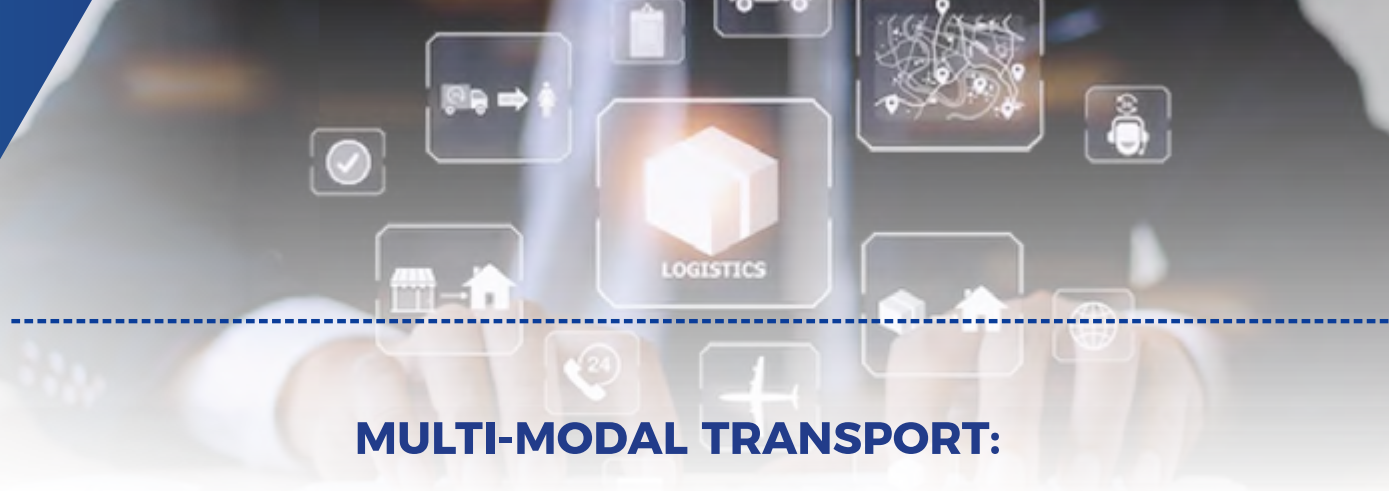

VISION

To offer professional and efficient logistics services to all our stakeholders.

OUR VALUES

1. Performance 2. Respect for each other 3. Integrity 4. Safety 5. Excellence

OUR PRODUCTS

CUSTOMS PROCEDURES:

- **Customs Brokerage**
- **Cargo Security & Safety**
- **Customs Compliance**

We have extensive knowledge, expertise and experience on the various customs procedures in the world. This enables us to offer unmatched services in both entry and exit points in the world. We fully understand customs online systems, acquired through years of experience from the piloting stages through to implementation and subsequent upgrades. This stable background enables us to process transactions within the shortest possible time lines and enhance efficiency of service delivery. As a value-added service, we regularly provide our customers with information on industry updates and regulatory compliance. Our efficient customs brokerage service helps in expediting and coordinating the logistics process from origin to destination to ensure that each consignment is accompanied with the correct documentation and applicable permits and licenses.

MULTI-MODAL TRANSPORT:

- **Ocean Freight**
- **Air Freight**
- **Rail**
- **Road freight**

TRANSPORT Speed, reliability, flexibility and cargo safety are the trademarks of our freight and logistics services. We provide customized port-to-port and door-to-door logistics solutions for general cargo, bulk cargo, special consignments, full container loads, loose cargo and vehicles. We provide excellent freight and logistics services, which include third party logistics (3PL), and end-to-end logistics models. Our import process includes collecting goods from countries of origin, ensuring that goods are loaded onto the most suitable carrier, carrying out customs and port clearance processes and ensuring safe delivery to a designated warehouse or our clients' premises cost effectively.

Our export process involves collecting goods from the manufacturer/supplier, carrying out customs, port procedures and ensuring that goods are loaded onto the most suitable carrier for export (air or sea freight) or transported to the next border point (road transport). We enhance efficiency by providing next-flight-out service for imports and exports with flexible cut-off and delivery times. Our services are not restricted to size, weight or shape. To exceed expectations and achieve customer delight, we leverage on our strategic global network partners to give us access through physical presence worldwide.

WAREHOUSING & DISTRIBUTION

TRANSPORT, WAREHOUSING & DISTRIBUTION

We offer cargo transport services for containerized, loose cargo, cars, and other consignments that may also require special handling. We have a large fleet of light and heavy commercial vehicles that are fitted with state-of-the-art electronic cargo tracking systems and are used for local and transit cargo transportation as well as distribution services. Our fleet of commercial vehicles include pick-ups and mini-trucks for door-to-door deliveries, light and heavy Lorries for cargo deliveries, car carriers, low loaders and wide loaders. Our trailers are technologically equipped to ensure control and monitoring of clients' freight at any given time, which ensures real time visibility of cargo at all times. We also offer cargo escort services for high value cargo and on a request basis.

We offer a wide range of warehousing and specialized services, which include cold storage and highly secured vault storage areas. Our warehouses are located in Nairobi and Mombasa. Our warehouse operations involve provision of secure facilities that meet client's standards in terms of equipment, security, health and safety. We have electricity backup generators that enhance our 24-hour surveillance system and cold room storage that ensure goods are safe and stored under required temperatures.

We carry out continuous stock administration, which includes receipt, tagging, palletization, put-away, data update and issuing out to users and customers. Where necessary, we carry out assembling (kitting), bundling, packaging and labeling of stocks. Our administrative processes include continuous stock verification, cycle counting and stock counting.

INTERNATIONAL FREIGHT FORWARDING:
